

I really enjoy listening to XM Satellite Radio and its traffic and weather channels without commercials. This something I am paying for with a monthly subscription. I especially enjoy the variety and quality that satellite radio provides. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
